Europe Equity Market Outlook: Q4 2023

October 1, 2023

[Download report](#)

Central banks have their work cut out for them. Core inflation remains high and the sticky nature of this type of inflation means that progress in getting inflation back down to the 2% target could take significant time. This poses serious questions for central banks: keep rates high and risk a recession, or reduce rates and potentially have to deal with an overheating economy?
