

Rob Biederman will help founders rethink how to scale at TechCrunch All Stage 2025

If you're a founder looking to grow your startup, chances are you're wrestling with more than just product or capital. Talent, scale, and smart execution are the real battlegrounds. That's exactly what [TechCrunch All Stage 2025](#) is built to address on July 15 at Boston's SoWa Power Station.

[Rob Biederman](#), managing partner at [Asymmetric Capital Partners](#) and one of the sharpest minds in talent, tech, and scaling strategy, will share his insights in a roundtable session. This is THE place where you can ask him directly what it takes to scale.

[See many more top startup leaders taking the stage](#) to share honest insights, hands-on strategies, and lessons learned in the trenches. As a special surprise as we get closer to the event, we're launching a limited-time 60% or more discount on two passes. That brings Founder Passes to \$155, Investor Passes down to just \$250, and students still get a chance to attend for just \$99.

[Check out the best option for you and your team right here](#) to learn how to secure VC funding, recruit the right early hires, manage founder finances, navigate the messy middle of growth at all stages of scaling, and more.

What Biederman brings to TechCrunch All Stage

Simply put, he's built solutions where most startups get stuck and is set on sharing those fixes to those in need.

Before launching Asymmetric, Biederman co-founded [Catalant Technologies](#), where he spent eight years as co-CEO, turning the company into the market leader for on-demand, high-skill talent. Today, Catalant powers how major companies deploy workforces, connecting them with more than 70,000 consultants and 1,000 boutique firms.

He now serves as chairman of Catalant, is the co-author of "[Reimagining Work](#)," and teaches scaling technology ventures at Harvard Business School, where he's an executive fellow. In short, Biederman doesn't just talk about scale — he teaches it, builds it, and funds it.
