Amazon introduces a more affordable color screen Kindle

Sarah Perez — 8:50 AM PDT · July 24, 2025

Amazon is making its color screen Kindle more affordable. Following the launch of the [Kindle Colorsoft](#) last year, the retailer on Thursday introduced a [lower-cost version](#) of the normally \$279.99 device. The new device offers a \$30 discount for 16GB of storage instead of 32GB, bringing the cost down to \$249.99. A [Kids edition](#) is also now available.

The original [Kindle Colorsoft Signature Edition](#) was designed to bring a more engaging visual experience to the popular Kindle e-reader, ideal for digitally browsing comics and other graphic novels or highlighting in different colors. The device offered an adjustable, glare-free display with up to eight weeks of battery life, and it even allows users to invert the black text and white background of pages for those who prefer a dark mode-like experience.

The new 16GB model also features the high-contrast Colorsoft display of the original, the adjustable warm light, battery life, fast page turns, and more. Plus, it includes three months of Kindle Unlimited, the subscription offering access to over 4 million e-books.

However, it won't include the auto-adjusting front light, wireless charging, or the larger storage space of the Signature Edition.

The Kindle Colorsoft Kids ships with an illustrated cover, a two-year guarantee, and a year of the Amazon Kids+ subscription offering access to books, games, videos, apps, and more. The \$269.99 device includes a handful of features to help kids practice reading, too, including a vocabulary builder and a feature called Word Wise that helps them learn new words, as well as the OpenDyslexic font, and Bluetooth connectivity for listening to audiobooks.

With [this morning's addition](#) of 16,000 Italian-language ebooks, and 22,000 Spanish-language books, [Amazon](#) has updated the total number of digital books it claims to offer through its Kindle Store. The company [says](#) the new Kindle Store now offers over 900,000 titles in English and other languages, and indeed, the [eBooks section](#) actually turns up 950,000+ search results.

For the record: this is eBooks only – all in all, there are more than 1 million books, newspapers, magazines and blogs available for Amazon Kindle today, the company professes on [this page](#) (see ‘Massive Selection’) and elsewhere.

Every weekday and Sunday, you can get the best of TechCrunch's coverage.

Conveniently, Juniper Research this morning [released](#) a new [report](#) on mobile eBook sales, which it forecasts to reach close to \$10 billion (\$9.7b) by 2016, up from \$3.2 billion this year.

The research firm says the expected jump in eBook sales for portable devices can be attributed to the growing number of dedicated eReader devices on the market, an upsurge in usage across smartphones and tablet computers and the rise of brand bookstore apps like Apple's iBookstore and, of course, Amazon's Kindle Store.

Juniper Research says the increasing demand for tablets means that such devices will account for nearly 30 percent of all eBook downloads by 2016.

Perhaps surprisingly, the firm claims smartphones are not, and are unlikely to become, a primary reading device in markets other than Japan (due to the manga comics phenomenon there).

All Is Right With The World: EBook Apps Back On The iPad

John Biggs — 2:13 AM PDT · July 26, 2011

Yesterday's "[Everybody panics!](#)" is today's "Meh." B&N, [Amazon](#), and Google Books have all taken pains to make it abundantly clear that you can only buy their ebooks from the e-store "through the Safari browser on their device or any computer" (to quote B&N) and have removed direct links to those stores from their iPad apps. In this way, they bypass Apple's 30% revenue request. Here are the chances folks have made, including Google Books' return to the App Store with ebook sales disabled.

Twitter. In order to comply with recent policy changes by Apple, we've also removed the "Kindle Store" link from within the app that opened Safari and took you to the Kindle Store. You can still shop as you always have – just open Safari and go to www.amazon.com/kindlestore. If you want, you can bookmark that URL. Your Kindle books will be delivered automatically to your iPad, iPhone or iPod touch, just as before.

Nook

NOOK for iPad will soon be updated to offer the innovative, interactive magazine experience first available on the award-winning NOOK Color™. Optimized for high-resolution displays in rich, beautiful color, iPad users will have access to popular daily, weekly and monthly periodicals, including Esquire, Maxim, Forbes, Food Network Magazine, Newsweek, Popular Science, ESPN The Magazine, Elle, O, the Oprah Magazine, Parenting: Early Years, The Washington Post, USA TODAY, The Chicago Tribune, The Los Angeles Times and many more. Through Barnes & Noble's exclusive ArticleView technology, readers can customize the article's text to their favorite style in an easy to read, central panel on the display. NOOK Magazines can be enjoyed in both portrait and two-page landscape view and feature a slider and other interactive tools to enable the user to move easily throughout the magazine. NOOK Newsstand periodicals are available for subscription at www.nooknewsstand.com with a 14-day free trial and via single copies.
