Microsoft says it will no longer use engineers in China for Department of Defense work

Following [a ProPublica report](#) that Microsoft was using engineers in China to help maintain cloud computing systems for the U.S. Department of Defense, the company said it’s made changes to ensure this will no longer happen.

The existing system reportedly relied on “digital escorts” to supervise the China-based engineers. But according to ProPublica, those escorts — U.S. citizens with security clearances — sometimes lacked the technical expertise to properly monitor the engineers.

In response to the report, Secretary of Defense Pete Hegseth [wrote on X](#), “Foreign engineers — from any country, including of course China — should NEVER be allowed to maintain or access DoD systems.”

On Friday, Microsoft’s chief communications officer [Frank X. Shaw responded](#): “In response to

charge. Secure your exhibit space before your competitor does.
