

CUSTOMER-FIRST COMMERCE

Online grocery shopping has developed separate and apart from the in-store experience...

68% of shoppers **unsatisfied** with search options

70% of shoppers **unsatisfied** with site navigation

66% of shoppers **unsatisfied** with customer service

80% of shoppers **unsatisfied** with fulfillment options

A fractured shopping experience made worse by retailers' disparate digital touchpoints...

stor.ai : Customer-First Commerce

One platform that powers rich, contextual, relevant digital customer engagement across all touchpoints...

Today and Tomorrow

Stor.ai's Customer-First Commerce Platform

Customer Engagement

Product browsing, discovery, and shopping delivered through one user experience

Digital Merchandising

Bring trade promo and shopper marketing into your digital ecosystem

Frictionless Shopping

Make shopping easy:
Mobile App
Scan & Go
Smart Carts

Fulfillment

Operational efficiency and automation to make online sales profitable

IMMERSIVE DIGITAL ENGAGEMENT

Consistent and Seamless Shopping Experience:

- ☐ Browsing
- ☐ Research
- ☐ Discovery

Digital Merchandising

Like the 'middle shelf', the prime real estate of any digital Commerce store are the products & banners at the top of the category or search results pages which are above the fold.

The average difference in how users treat info above vs. below the fold is 84%.

stor.ai Fulfillment

- Three picking modes for optimized efficiency
- Integrates to point of sale for order closeout
- Fully mobile on android or iOS
- Integrates with final mile delivery partners
- Deployed with MFC partners
- Operate as stand alone app in a dark-store
