

Latin America Startup Funding Ticked Higher In 2024

Joanna Glasner January 10, 2025

Joanna Glasner
jglasner

Latin America startup investment closed out 2024 on an up note, with the fourth quarter delivering the highest aggregate funding of the year.

Overall, investors put \$4.2 billion into seed- through growth-stage rounds for the region in 2024. That's a 27% increase from [the prior year](#).

Even with these gains, however, funding remains far below the [peaks scaled in 2021](#) and early 2022. Last year, meanwhile, was a historically weak period for venture investment in Central and South America.

For perspective, we charted out investment totals, color-coded by stage, for the past 12 quarters below.

Latin America Venture Dollar Volume Through Q4 2024

	Legend			
	Angel-Seed	Early Stage	Late Stage	Technology Growth
	QoQ Change [%]		YoY Change [%]	
Overall Dollar Volume	11%		20%

A fintech-led recovery

Fintech was by far the dominant sector for Latin America’s startup investment in both Q4 and 2024 overall, with companies in the space pulling in the lion’s share of the largest rounds.

In the fourth quarter, for instance, the largest venture financing was a \$300 million [Series E](#) for Buenos Aires-based neobank [Ualá](#). The next-biggest was a \$133 million Series C for Brazil-based [Asaas](#), a provider of online business accounts, followed by a \$125 million venture round for another Brazilian company, [Contabilizei](#), an accounting platform.

You can see the financial sector’s strong showing in the chart below, outlining 13 of the year’s largest Latin America venture rounds.

Large 2024 Venture Funding Rounds For Latin American Startups

Organization Name	Organization Description	Money Raised (in USD)
Ualá	Ualá is a fintech company that provides a digital banking application that allows users to manage their finances.	\$300,000,000
Asaas	Asaas helps individuals and companies automate financial processes and improve their relationship with customers.	\$148,116,036
Celcoin	Celcoin — banking is now your business.	\$125,000,000
Contabilizei	Contabilizei is a financial back-office platform for SMBs providing business formation, tax filing and accounting.	\$125,000,000
Stori	Stori is a fintech company providing digital financial services to underserved customers.	\$105,000,000
Clip	Clip is the leading digital payments and commerce enablement platform in Mexico.	\$100,000,000
Jusbrasil	Jusbrasil connects consumers and attorneys through legal information.	\$86,100,000
OCN	OCN offers online car rentals with all-inclusive subscription services.	\$86,000,000
CRMBonus	CRMBonus is a CRM consultancy and giftback platform.	\$77,986,391
Aplazo	Aplazo is a payment network that offers payment solutions and merchant tools to help merchants sell more and grow their brands.	\$70,000,000
Blip	Blip is driven by an ambitious target: to be the greatest tool available to simplify procedures and combine the best ideas.	\$60,000,000
Cayena	Cayena offers a B2B marketplace for restaurants to procure inventory from suppliers with next-day delivery and better payment terms.	\$55,000,000
Simetrik	Simetrik is a no-code solution that offers the right balance between flexibility and robustness for the reconciliation process automation.	\$55,000,000

crunchbase

Digital commerce was another predominant theme for startup funding in 2024. Two Mexico-based companies were among last year’s largest

fundraisers: [Clip](#), a provider of payment terminals and apps for merchants that raised \$100 million, and [OCN](#), an EV subscription service for rideshare drivers that picked up \$86 million.

Brazil leads for startup funding as late stage gains

Brazil was by far the largest startup investment recipient in the region in 2024, pulling in close to half of funding. Next was Mexico, capturing roughly a fifth of total investment, followed by Argentina, Colombia and Chile.

Funding was up year over year for a majority of geographies. Investment by stage, however, fluctuated a great deal quarter to quarter.

For Q4, in particular, late-stage funding drove gains, with investment hitting its highest point in five quarters, as illustrated below.

Latin America Late-Stage & Technology Growth Investment Through Q4 2024

Early stage, meanwhile, was weaker in the fourth quarter, actually hitting the highest point of the year in Q1, as illustrated below.

Latin America Early-Stage Investment Through Q4 2024

Exits ahead?

The past year was not particularly happening for IPOs or big-ticket acquisitions of venture-backed startups in Latin America. Given the sizable pipeline of well-funded, relatively mature companies in fintech and other areas, however, the hope is that activity will rebound in 2025, particularly if the IPO market shows renewed signs of life.

For now, it's encouraging to see that the worst of the post-peak downturn may be behind us, with funding to Latin America's startups on the rise in both the past quarter and all of 2024.

Methodology

The data contained in this report comes directly from Crunchbase, and is based on reported data. Data reported is as of Jan. 3, 2025.

Note that data lags are most pronounced at the earliest stages of venture activity, with seed funding amounts increasing significantly after the end of a quarter/year.

Please note that all funding values are given in U.S. dollars unless otherwise noted. Crunchbase converts foreign currencies to U.S. dollars at the prevailing spot rate from the date funding rounds, acquisitions, IPOs and other financial events are reported. Even if those events were added to Crunchbase long after the event was announced, foreign currency transactions are converted at the historic spot price.

Glossary of funding terms

Seed and angel consists of seed, pre-seed and angel rounds. Crunchbase also includes venture rounds of unknown series, equity crowdfunding and convertible notes at \$3 million (USD or as-converted USD equivalent) or less.

Early-stage consists of Series A and Series B rounds, as well as other round types. Crunchbase includes venture rounds of unknown series, corporate venture and other rounds above \$3 million, and those less than or equal to \$15 million.

Late-stage consists of Series C, Series D, Series E and later-lettered venture rounds following the "Series [Letter]" naming convention. Also included are venture rounds of unknown series, corporate venture and other rounds above \$15 million. Corporate rounds are only included if a company has raised an equity funding at seed through a venture series funding round.

Technology growth is a private-equity round raised by a company that has previously raised a “venture” round. (So basically, any round from the previously defined stages.)
