Perplexity now supports live earnings call transcripts for Indian stocks

AI startup Perplexity is augmenting its [Finance dashboard](#) with live transcriptions of Indian public companies' quarterly earnings calls, as well as a calendar to show schedules for post-results conference calls.

Alongside surfacing news about the markets, Perplexity's Finance dashboard shows market summaries, stock exchange charts, and top performing stocks. The dashboard also lets users create stock watchlists, track sector performance, and see cryptocurrency performance.

Until now, the dashboard only showed transcripts for U.S. stocks.

Perplexity's Finance dashboard now support live earnings calls transcriptions and features earnings calls schedules for Indian stocks. We hope to add a lot more value to Indian equity markets research in the coming days! Enjoy!
