Google, worked on deep research and OpenAI's GPT-4 model. His research is focused on reasoning and agents.

Sources told Wired that the two had a close working relationship, which could be why Zuckerberg scooped them both up. Like World War II drafters in the U.K., he seems to have a penchant for bringing on groups who've worked together.

Got a sensitive tip or confidential documents? We're reporting on the inner workings of the AI industry — from the companies shaping its future to the people impacted by their decisions. Reach out to Rebecca Bellan at rebecca.bellan@techcrunch.com and Maxwell Zeff at maxwell.zeff@techcrunch.com.
